

# iCars Network Intelligent Cars Thematic Network

The iCars Network is a two year project financed by the EC DG Information Society and Media. The project will contribute to the deployment of transport ICT technologies (or ITS – “Intelligent Transport Systems”) by exchanging knowledge and experience on these technologies among a wide variety of stakeholders on a number of specific topics:

- ~ the exchange of information between the world of ITS development and the world of public procurement.
- ~ the exchange of good practices between organisations who deal with dissemination of information and awareness actions among authorities, businesses and end-users.
- ~ the exchange of knowledge and evaluations of impact assessment methods for ITS.
- ~ the exchange on ITS technologies having a possible positive effect on energy efficiency in road transport and developing a road map on the introduction of these technologies.

The Network will specifically address the uptake of ITS for transport in order to

- ~ make vehicles smarter, cleaner and safer
- ~ reduce the number of deaths on the roads
- ~ contribute to lower emissions
- ~ improve the global competitiveness of the European automotive and ITS industry

## ➤ Partners

The project brings together a consortium of 16 European organisations:

- |                                     |                           |
|-------------------------------------|---------------------------|
| ~ FIA European Bureau (Coordinator) | ~ ISIS                    |
| ~ ACEA                              | ~ Lindholmen Science Park |
| ~ AMANOVA                           | ~ Orange                  |
| ~ BAST                              | ~ POLIS                   |
| ~ CEDR                              | ~ TIE                     |
| ~ CLEPA                             | ~ TNO                     |
| ~ CTAG                              | ~ University of Cologne   |
| ~ ERTICO – ITS Europe               | ~ VTT                     |

## ➤ How you can contribute

The iCars Network will organise a number of information exchange and consensus building events to which all stakeholders are invited to contribute. To know more about such opportunities contact [info@icarsnetwork.eu](mailto:info@icarsnetwork.eu).

## ➤ Find out more

Visit [www.icarsnetwork.eu](http://www.icarsnetwork.eu) where you can find more about the project results, news and events. You can also register via the website to take part in the project’s public workshops.

## ➤ Project Duration 2008-2010
